

Safety Data Sheet

SDS #: B-0359 Developer-Magenta

**Issuing Date** 2002-05-24 **Revision Date** 2015-05-18 **Version** 1

Active

1. Product and Company Identification

Trade Name Developer for DocuColor 70, DocuColor 100, DocuColor 130

Part no. 005R00610, 005R00628, 005R90236, 005R90239

**Color** Magenta Pure substance/preparation Preparation

Identified uses Xerographic printing

Manufactured by Xerox Corporation

Rochester, NY 14644

**Emergency telephone** Safety Information US: (800) 275-9376

Chemical Emergency only (Chemtrec) (800) 424-9300

### 2. Hazards Identification

#### **Emergency Overview**

The product contains no substances which, in the form utilized and at their given concentrations, are considered to be

hazardous to health.

ColorAppearancePhysical stateOdorMagentaPowderSolidFaint

# Classification of the substance or mixture

## Customer use / Cartridges and sealed bottles

**OSHA Hazard Classification** This product is an article which contains a mixture / preparation in powder form. Safety

information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based

on the packaging and method of dispensing.

While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to

employees and other users of this product.

Label elements

Signal Word None

Hazard Statements None required

Page 2/7 SDS #: B-0359 **Developer-Magenta** 

**Precautionary Statements** None required

**Potential Health Effects** 

**Principle Routes of Exposure** 

**Acute toxicity** 

Inhalation

Eyes No known effect Skin No known effect Inhalation No known effect Ingestion No known effect

**Chronic effects** 

No known effects under normal use conditions **Chronic toxicity** 

Main symptoms Overexposure may cause:

mild respiratory irritation similar to nuisance dust.

Aggravated medical conditions

None under normal use conditions

**Environmental hazard** The environmental impact of this product has not been fully investigated. However, this

preparation is not expected to present significant adverse environmental effects.

# 3. Composition/Information on Ingredients

Chemical Name	CAS-No	Weight %
Ferrite	66402-68-4	94-99
Polyester resin	39382-25-7	4-9
Magenta pigment	75627-12-2	<1
Titanium dioxide	13463-67-7	<1

# 4. First Aid Measures

**General advice** For external use only. When symptoms persist or in all cases of doubt seek medical advice.

Show this material safety data sheet to the doctor in attendance.

Eye contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and

continue flushing for at least 15 minutes

Skin contact Wash skin with soap and water

Inhalation Move to fresh air

Ingestion Rinse mouth with water and afterwards drink plenty of water or milk

Notes to physician Treat symptomatically

**Protection of first-aiders** No special protective equipment required

# Fire-Fighting Measures

Flammable properties Not flammable. Will not readily ignite

Flash point Not applicable

Suitable extinguishing media Use water spray or fog; do not use straight streams, Foam

Unsuitable extinguishing media Do not use a solid water stream as it may scatter and spread fire

Page 3/7 SDS #: B-0359 **Developer-Magenta** 

## Specific hazards arising from the chemical

**Hazardous combustion products** Hazardous decomposition products due to incomplete

combustion, Carbon oxides, Nitrogen oxides (NOx)

**Explosion Data** 

**Sensitivity to Mechanical Impact** 

Not impact sensitive

Fine dust dispersed in air, in sufficient concentrations, and in the Sensitivity to Static Discharge presence of an ignition source is a potential dust explosion

hazard

**Protective Equipment and Precautions for Firefighters** 

In the event of fire and/or explosion do not breathe fumes. Wear fire/flame resistant/retardant clothing. Use self-contained pressure-demand breathing apparatus if needed to prevent exposure to smoke or airborne toxins.

#### Accidental Release Measures

**Personal Precautions** Avoid breathing dust

**Environmental Precautions** No special environmental precautions required

Methods for containment Prevent dust cloud

Methods for cleaning up Prevent dust cloud. Sweep up or vacuum up spillage and collect in suitable container for

disposal. Use non-sparking tools and equipment.

Other Information The environmental impact of this product has not been fully investigated. However, this

preparation is not expected to present significant adverse environmental effects.

7. Handling and Storage

Advice on safe handling Handle in accordance with good industrial hygiene and safety practice

Avoid dust accumulation in enclosed space

Prevent dust cloud

Technical measures/Storage

conditions

Keep container tightly closed in a dry and well-ventilated place

Store at room temperature

None under normal use condtions Hygiene measures

## 8. Exposure Controls/Personal Protection

## **Exposure guidelines**

## **Product information**

**ACGIH TLV TWA** 10 mg/m<sup>3</sup> (inhalable particles) 3 mg/m³ (respirable dust) **ACGIH TLV TWA OSHA PEL TWA** 15 mg/m<sup>3</sup> (total dust) 5 mg/m<sup>3</sup> (respirable dust) **OSHA PEL TWA Xerox Exposure Limit** 2.5 mg/m<sup>3</sup> (total dust) **Xerox Exposure Limit** 0.4 mg/m3 (respirable dust)

SDS #: B-0359 Developer-Magenta Page 4/7

#### Other Information

The results obtained from a Xerox sponsored Chronic Toner Inhalation Study demonstrated no lung changes in rats for the lowest (1 mg/m³) exposure level (the level most relevant to potential human exposure). A very slight degree of fibrosis was noted in 25% of animals at the middle (4mg/m³) exposure level, while a slight degree of fibrosis was noted in all the animals at the highest (16 mg/m³) exposure level. These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged period. This study was conducted using a special test toner to comply with an EPA testing protocol.

# **Occupational Exposure Controls**

Engineering measures None under normal use conditions

## **Personal Protective Equipment**

#### Customer use / Cartridges and sealed bottles

Respiratory protection 
No special protective equipment required

**Eye/Face protection**No special protective equipment required

Skin and body protection 
No special protective equipment required

Hand protection No special protective equipment required

## 9. Physical and Chemical Properties

Powder Faint **Appearance** Odor Not applicable Odor threshold Physical state Solid Not applicable Color Magenta pН Not applicable Not applicable Flash point **Boiling** point/range

Autoignition Not applicable

temperature

Flammability Limits in Air Not applicable

**Explosive properties** Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition

source is a potential dust explosion hazard

Not applicable Vapor pressure Not applicable Vapor density Water solubility Negligible **Viscosity** Not applicable Partition coefficient Not applicable **Evaporation rate** Not applicable Melting point/range Not determined Freezing point Not applicable **Decomposition temperature** Not determined

Specific gravity ~ 1 (toner component)

~ 5 (carrier component)

#### Stability and Reactivity

Reactivity No dangerous reaction known under conditions of normal use

SDS #: B-0359 Developer-Magenta Page 5/7

Stability Stable under normal conditions

Incompatible products None

Conditions to Avoid Prevent dust cloud

Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition

source is a potential dust explosion hazard

Hazardous Decomposition Products None under normal use

Hazardous polymerization Hazardous polymerization does not occur

Hazardous reactions None under normal processing

# 11. Toxicological Information

The toxicity data noted below is based on the test results of similar reprographic materials.

#### Acute toxicity

## **Product information**

**Irritation** No skin irritation, No eye irritation

 LD50 Oral
 > 5 g/kg (rat)

 LD50 Dermal
 > 5 g/kg (rabbit)

 LC50 Inhalation:
 > 5 mg/L (rat, 4 hr)

EyesNo known effectSkinNo known effectInhalationNo known effectIngestionNo known effect

#### Chronic toxicity

### **Product information**

Main symptoms Overexposure may cause: mild respiratory irritation similar to nuisance dust.

**Aggravated medical conditions**None under normal use conditions
Carcinogenicity
See "Other Information" in this section.

Chemical Name	IARC	NTP
Titanium dioxide	2B	

## Other information

The IARC (International Agency for Research on Cancer) has listed titanium dioxide as "possibly carcinogenic to humans". The classification is based on studies in rats using pure, unbound TiO2. Based on the review of available study results, when this product is used as intended, Xerox has concluded that the presence of titanium dioxide in this mixture does not present an increased risk of lung cancer or chronic respiratory disease.

## Other toxic effects

**Product information** 

Sensitization No sensitization responses were observed

Mutagenic effects Not mutagenic in AMES Test

Target organ effects None known

Other adverse effects None known
Aspiration Hazard Not applicable

# 12. Ecological Information

SDS #: B-0359 Developer-Magenta Page 6/7

#### **Ecotoxicity**

The environmental impact of this product has not been fully investigated. However, this preparation is not expected to present significant adverse environmental effects.

## 13. Disposal Considerations

Waste Disposal Methods This material, as supplied, is not a hazardous waste according to Federal regulations (40

CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local

regulations for additional requirements.

Contaminated packaging Dispose of in accordance with local regulations.

14. Transport Information

**Note** This material is not subject to regulation as a hazardous material for shipping.

#### 15. Regulatory Information

#### **OSHA Regulatory Status**

This product is an article which contains a mixture / preparation in powder form. Safety information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based on the packaging and method of dispensing.

While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to employees and other users of this product.

# **International Inventories**

TSCA Complies DSL/NDSL Complies

#### U.S. Federal Regulations

#### **SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

## **Clean Water Act**

This product is not regulated as a pollutant pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

### Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)

This product is not regulated as a hazardous air pollutant (HAPS) under Section 112 of the Clean Air Act Amendments of 1990. **CERCLA** 

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

#### TSCA

TSCA 12(b) does not apply to this product.

#### U.S. State Regulations

SDS #: B-0359 Developer-Magenta Page 7/7

#### **California Proposition 65**

Titanium dioxide is regulated under California Proposition 65 only if a product results in exposure in the form of "airborne, unbound particles of respirable size". Toner products do not result in exposure to titanium dioxide in the form of "airborne, unbound particles of respirable size". Therefore, the requirements of Proposition 65 do not apply to this product.

Chemical Name	CAS-No	California Prop. 65
Titanium dioxide	13463-67-7	Carcinogen

#### U.S. State Right-to-Know Regulations

Although this product contains substances included in some U.S. State Right-to-Know regulations, the particles are bound in a unique matrix and, therefore, the product does not pose any specific hazard.

#### Canada

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all the information required by the CPR.
