1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product Identifier

Product Name
Toner

Part no.
006R01551, 006R01552, 006R01729, 006R01730, 093K04602, 093K04612

Color
Black

Pure substance/mixture
Mixture

Recommended Use
Xerographic printing

Details of the supplier of the safety data sheet

Manufactured by
Xerox Corporation
Webster, NY 14580

Contact person
Manager, Environment, Health, Safety & Sustainability

E-mail address
askxerox@xerox.com

Emergency telephone
Safety Information US: (800) 275-9376
Chemical Emergency only (Chemtrec) (800) 424-9300

2. HAZARDS IDENTIFICATION

Classification of the substance or mixture

Customer use / Cartridges and sealed bottles

OSHA Hazard Classification
This product is an article which contains a mixture / preparation in powder form. Safety information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based on the packaging and method of dispensing.

While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to employees and other users of this product.

Label elements

Signal Word
None
Hazard Statements
None required

Precautionary Statements
None required

Other hazards
Not a PBT according to REACH Annex XIII
May form explosible dust-air mixture if dispersed

3. COMPOSITION/INFORMATION ON INGREDIENTS

4. FIRST AID MEASURES

Description of first-aid measures

General advice
For external use only. When symptoms persist or in all cases of doubt seek medical advice. Show this material safety data sheet to the doctor in attendance.

Eye contact
Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes

Skin contact
Wash skin with soap and water

Inhalation
Move to fresh air

Ingestion
Rinse mouth with water and afterwards drink plenty of water or milk

Most important symptoms and effects, both acute and delayed

Acute toxicity

<table>
<thead>
<tr>
<th>Eyes</th>
<th>Skin</th>
<th>Inhalation</th>
<th>Ingestion</th>
</tr>
</thead>
<tbody>
<tr>
<td>No known effect</td>
<td>No known effect</td>
<td>No known effect</td>
<td>No known effect</td>
</tr>
</tbody>
</table>

Main symptoms
Overexposure may cause:
mild respiratory irritation similar to nuisance dust.

Aggravated Medical Conditions
None under normal use conditions

Indication of immediate medical attention and special treatment needed

Protection of first-aiders
No special protective equipment required

Notes to physician
Treat symptomatically

5. FIRE-FIGHTING MEASURES

Extinguishing media

<table>
<thead>
<tr>
<th>Suitable extinguishing media</th>

</tbody>
</table>

Special hazards arising from the substance or mixture
Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion
hazard

**Hazardous combustion products**
Hazardous decomposition products due to incomplete combustion, Carbon oxides, Nitrogen oxides (NOx)

**Advice for fire-fighters**
In the event of fire and/or explosion do not breathe fumes. Wear fire/flame resistant/retardant clothing. Use self-contained pressure-demand breathing apparatus if needed to prevent exposure to smoke or airborne toxins. Wear self-contained breathing apparatus and protective suit

**Other information**
- Flammability: Not flammable. Will not readily ignite.
- Flash point: Not applicable

6. ACCIDENTAL RELEASE MEASURES

**Personal precautions, protective equipment and emergency procedures**
Avoid breathing dust

**Environmental precautions**
No special environmental precautions required

**Methods and material for containment and cleaning up**
- Methods for containment: Prevent dust cloud
- Methods for cleaning up: Use a vacuum cleaner to remove excess, then wash with COLD water. Hot water fuses the toner making it difficult to remove

**Reference to other sections**
The environmental impact of this product has not been fully investigated. However, this preparation is not expected to present significant adverse environmental effects.

7. HANDLING AND STORAGE

**Precautions for safe handling**
- Advice on safe handling: Handle in accordance with good industrial hygiene and safety practice, Avoid dust accumulation in enclosed space, Prevent dust cloud
- Hygiene measures: None under normal use conditions

**Conditions for safe storage, including any incompatibilities**
- Technical measures and storage: Keep container tightly closed in a dry and well-ventilated place, Store at room temperature conditions
- Incompatible products: None

**Specific end uses**
- Xerographic printing

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Control parameters**

**Exposure Limits**
- ACGIH TLV TWA: 10 mg/m³ (inhalable particles)
- ACGIH TLV TWA: 3 mg/m³ (respirable dust)
- OSHA PEL TWA: 15 mg/m³ (total dust)
OSHA PEL TWA 5 mg/m³ (respirable dust)
Xerox Exposure Limit 2.5 mg/m³ (total dust)
Xerox Exposure Limit 0.4 mg/m³ (respirable dust)

<td>TWA: 15 mg/m³</td>
</tr>
</tbody>
</table>

**Exposure controls**

**Engineering measures**
None under normal use conditions

**Individual protection measures, such as personal protective equipment (PPE)**

- **Eye/Face protection**: No special protective equipment required
- **Hand protection**: No special protective equipment required
- **Skin and body protection**: No special protective equipment required
- **Respiratory protection**: No special protective equipment required.
- **Thermal hazards**: None under normal processing

**Environmental Exposure Controls**
Keep out of drains, sewers, ditches and waterways

### 9. PHYSICAL AND CHEMICAL PROPERTIES

**Other information**
None

### 10. STABILITY AND REACTIVITY

**Reactivity**
No dangerous reaction known under conditions of normal use

**Chemical stability**
Stable under normal conditions.

**Possibility of hazardous reactions**
- **Hazardous reactions**: None under normal processing
- **Hazardous polymerization**: Hazardous polymerization does not occur

**Conditions to avoid**
Prevent dust cloud, Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard

**Incompatible Materials**
None

**Hazardous decomposition products**
None under normal use

### 11. TOXICOLOGICAL INFORMATION

The toxicity data noted below is based on the test results of similar reprographic materials.

#### Information on toxicological effects

**Acute toxicity**

**Product Information**
- **Irritation**: No skin irritation, No eye irritation
- **Oral LD50**: > 5 g/kg (rat)
- **Dermal LD50**: > 5 g/kg (rabbit)
- **LC50 Inhalation**: > 5 mg/L (rat, 4 hr)

**Component Information**

<table>
<thead>
<tr>
<th>Chemical Name</th>

<td></td>
<td>10000 mg/kg (Rat)</td>
</tr>
</tbody>
</table>

**Chronic toxicity**
- **Sensitization**: No sensitization responses were observed
- **Neurological Effects**: No information available
- **Target organ effects**: None known

**CMR Effects**
- **Mutagenic effects**: Not mutagenic in AMES Test
- **Reproductive toxicity**: This product does not contain any known or suspected reproductive hazards
- **Carcinogenicity**: See "Other Information" in this section.

</tr>
</tbody>
</table>

**Other information**

The IARC (International Agency for Research on Cancer) has listed carbon black as "possibly carcinogenic to humans". However, Xerox has concluded that the presence of carbon black in this mixture does not present a health hazard. The IARC classification is based on studies evaluating pure, "free" carbon black. In contrast, toner is a formulation composed of specially prepared polymer and a small amount of carbon black (or other pigment). In the process of making toner, the small amount of carbon black becomes encapsulated within a matrix. Xerox has performed extensive testing of toner, including a chronic bioassay (test for potential carcinogenicity). Exposure to toner did not produce evidence of cancer in exposed animals. The results were submitted to regulatory agencies and published extensively.

The IARC (International Agency for Research on Cancer) has listed titanium dioxide as "possibly carcinogenic to humans". However, Xerox has concluded that the presence of titanium dioxide in this mixture does not present a health hazard. The IARC classification is based on studies in rats using high concentrations of pure, unbound TiO₂ particles of respirable size.
The Titanium Dioxide Industry REACH Consortium has concluded that these effects were species-specific, attributable to lung overload and not specific to TiO₂, i.e. similar effects would also be seen for other low solubility dusts. Toxicological and epidemiological studies do not suggest a carcinogenic effects in humans. In addition, the titanium dioxide in this mixture is encapsulated in a matrix or bound to the surface of the toner.

12. ECOLOGICAL INFORMATION

Toxicity
On available data, the mixture / preparation is not harmful to aquatic life

<table>
<thead>
<tr>
<th>Component Information</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Chemical Name</strong></td>
</tr>
<tr>
<td>Carbon black</td>
</tr>
</tbody>
</table>

Persistence and degradability
Not readily biodegradable

Bioaccumulative potential
Bioaccumulation is unlikely

Mobility in soil
Insoluble in water

Other adverse effects
Presents little or no hazard to the environment.

13. DISPOSAL CONSIDERATIONS

Waste treatment methods
This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.

Contaminated packaging
No special precautions are needed in handling this material

Other information
Although toner is not an aquatic toxin, microplastics may be a physical hazard to aquatic life and should not be allowed to enter drains, sewers, or waterways.

14. TRANSPORT INFORMATION

This material is not subject to regulation as a hazardous material for shipping

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

OSHA Regulatory Status
This product is an article which contains a mixture / preparation in powder form. Safety information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based on the packaging and method of dispensing.

While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to employees and other users of this product.

**Canada**

This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR), and the SDS contains all the information required by the HPR.

**International Inventories**

<table>
<thead>
<tr>
<th>Inventory</th>
<th>Complies</th>
</tr>
</thead>
<tbody>
<tr>
<td>TSCA</td>
<td></td>
</tr>
<tr>
<td>DSL/NDSL</td>
<td></td>

</tbody>
</table>

**U.S. Federal Regulations**

**SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372

**Clean Water Act**

This product is not regulated as a pollutant pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

**Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)**

This product is not regulated as a hazardous air pollutant (HAPS) under Section 112 of the Clean Air Act Amendments of 1990.

**CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

**US State Regulations**

**California Proposition 65**

Carbon black is regulated under California Proposition 65 only if in the form of “airborne, unbound particles of respirable size”. Toner products do not contain carbon black in the form of “airborne, unbound particles of respirable size”. Therefore, the requirements of Proposition 65 do not apply to this product.

Titanium dioxide is regulated under California Proposition 65 only if a product results in exposure in the form of “airborne, unbound particles of respirable size”. Toner products do not result in exposure to titanium dioxide in the form of “airborne, unbound particles of respirable size”. Therefore, the requirements of Proposition 65 do not apply to this product.
