

# Safety Data Sheet

SDS # : P-7004

## Toner- Black/Cyan/Magenta/Yellow

Issuing Date 2005-06-09

Revision Date 2018-06-06

Version 1

**Active**

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

**Product Identifier**

**Product Name**

Toner for DocuColor 240, DocuColor 242, DocuColor 250, DocuColor 252, DocuColor 260, WorkCentre 7655, WorkCentre 7665, WorkCentre 7675, WorkCentre 7755, WorkCentre 7765, WorkCentre 7775

**Part no.**

006R01219, 006R01220, 006R01221, 006R01222, 006R01223, 006R01224, 006R01225, 006R01226, 006R01309, 006R01310, 006R01311, 006R01312, 006R01403, 006R01404, 006R01405, 006R01406, 006R01449, 006R01450, 006R01451, 006R01452

**Color**

Cyan, Black, Magenta, Yellow

**Pure substance/mixture**

Mixture

**Relevant identified uses of the substance or mixture and uses advised against**

**Recommended Use** Xerographic printing

**Details of the supplier of the safety data sheet**

**Manufactured by** Xerox Corporation  
Webster, NY 14580

**For further information, please contact**

**Contact person** Manager, Environment, Health, Safety & Sustainability  
**E-mail address** askxerox@xerox.com  
**Emergency telephone** Safety Information US: (800) 275-9376  
Chemical Emergency only (Chemtrec) (800) 424-9300  
(703) 527-3887 (collect outside the US or Canada)

2. HAZARDS IDENTIFICATION

**Classification of the substance or mixture**

**Customer use / Cartridges and sealed bottles**

**OSHA Hazard Classification**

This product is an article which contains a mixture / preparation in powder form. Safety information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based on the packaging and method of dispensing.

While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to employees and other users of this product.

**Label elements**

**Signal Word**                      None

**Hazard Statements**              None required

**Precautionary Statements**    None required

**Other hazards**

Not a PBT according to REACH Annex XIII

**3. COMPOSITION/INFORMATION ON INGREDIENTS**

**Mixtures**

This formulation represents multiple colors and the component list includes multiple pigments. The actual toner formulation for each color will differ only in the pigment used.

| <b>Chemical Name</b> | <b>CAS No.</b> | <b>Weight %</b> | <b>Classification (Reg. 1272/2008)</b> | <b>Hazard Statements</b> |
|----------------------|----------------|-----------------|--|--------------------------|
| Polymer              | 292629-36-8    | >60             | --                                     | --                       |
| Ferrite              | 66402-68-4     | <15             | --                                     | --                       |
| Paraffin wax         | 8002-74-2      | >5              | --                                     | --                       |
| Carbon Black         | 1333-86-4      | >3              | --                                     | --                       |
| Yellow Pigment       | 6358-31-2      | 0-10            | --                                     | --                       |
| Cyan Pigment         | 147-14-8       | 0-10            | --                                     | --                       |
| Magenta Pigment      | 980-26-7       | 0-10            | --                                     | --                       |
| Silicon dioxide      | 7631-86-9      | 1-10            | --                                     | --                       |
| Titanium dioxide     | 13463-67-7     | <1              | --                                     | --                       |

"--" indicates no classification or hazard statements apply.

**4. FIRST AID MEASURES**

**Description of first-aid measures**

**General advice**                      For external use only. When symptoms persist or in all cases of doubt seek medical advice. Show this material safety data sheet to the doctor in attendance.

**Eye contact**                              Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes

**Skin contact**                              Wash skin with soap and water

**Inhalation**                                  Move to fresh air

**Ingestion**                                    Rinse mouth with water and afterwards drink plenty of water or milk

**Most important symptoms and effects, both acute and delayed**

**Acute toxicity**

**Eyes**    No known effect

**Skin**    No known effect

**Inhalation**                                  No known effect

**Ingestion**                                    No known effect

**Chronic toxicity**                          No known effects under normal use conditions

**Main symptoms**                          **Overexposure may cause:**  
mild respiratory irritation similar to nuisance dust.

**Aggravated Medical Conditions**    None under normal use conditions

**Indication of immediate medical attention and special treatment needed**

**Protection of first-aiders**              No special protective equipment required

**Notes to physician**                      Treat symptomatically

**5. FIRE-FIGHTING MEASURES**

**Extinguishing media**

**Suitable extinguishing media**    Use water spray or fog; do not use straight streams, Foam  
**Unsuitable extinguishing media** Do not use a solid water stream as it may scatter and spread fire

**Special hazards arising from the substance or mixture**

**Hazardous combustion products**  
 Hazardous decomposition products due to incomplete combustion, Carbon oxides, Nitrogen oxides (NOx)

Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard

**Advice for fire-fighters**

In the event of fire and/or explosion do not breathe fumes. Wear fire/flame resistant/retardant clothing. Use self-contained pressure-demand breathing apparatus if needed to prevent exposure to smoke or airborne toxins.  
 Wear self-contained breathing apparatus and protective suit

**Other information**

**Flammability**                              Not flammable. Will not readily ignite.  
**Flash point**                                Not applicable

**6. ACCIDENTAL RELEASE MEASURES**

**Personal precautions, protective equipment and emergency procedures**

Avoid breathing dust

**Environmental precautions**

No special environmental precautions required

**Methods and material for containment and cleaning up**

**Methods for containment**            Prevent dust cloud  
**Methods for cleaning up**            Use a vacuum cleaner to remove excess, then wash with COLD water. Hot water fuses the toner making it difficult to remove.

**Reference to other sections**

The environmental impact of this product has not been fully investigated  
 However, this preparation is not expected to present significant adverse environmental effects.

**7. HANDLING AND STORAGE**

**Precautions for safe handling**

**Advice on safe handling**            Handle in accordance with good industrial hygiene and safety practice  
 Avoid dust accumulation in enclosed space  
 Prevent dust cloud

**Hygiene measures**                    None under normal use conditions

**Conditions for safe storage, including any incompatibilities**

**Technical measures and storage conditions** Keep container tightly closed in a dry and well-ventilated place  
 Store at room temperature

**Incompatible products**            None

**Specific end uses**

Xerographic printing

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

**Control parameters**

**Exposure Limits**

|                             |  |
|-----------------------------|--|
| <b>ACGIH TLV TWA</b>        | 10 mg/m <sup>3</sup> (inhalable particles) |
| <b>ACGIH TLV TWA</b>        | 3 mg/m <sup>3</sup> (respirable dust)      |
| <b>OSHA PEL TWA</b>         | 15 mg/m <sup>3</sup> (total dust)          |
| <b>OSHA PEL TWA</b>         | 5 mg/m <sup>3</sup> (respirable dust)      |
| <b>Xerox Exposure Limit</b> | 2.5 mg/m <sup>3</sup> (total dust)         |
| <b>Xerox Exposure Limit</b> | 0.4 mg/m <sup>3</sup> (respirable dust)    |

**Component Information**

| Chemical Name    | ACGIH TLV  | OSHA PEL                   |
|------------------|--|----------------------------|
| Ferrite          | TWA: 5 mg/m <sup>3</sup> TWA: 0.02 mg/m <sup>3</sup><br>TWA: 0.1 mg/m <sup>3</sup> |                            |
| Paraffin wax     | TWA: 2 mg/m <sup>3</sup>   |                            |
| Carbon Black     | TWA: 3 mg/m <sup>3</sup>   | TWA: 3.5 mg/m <sup>3</sup> |
| Cyan Pigment     | TWA: 1 mg/m <sup>3</sup>   |                            |
| Titanium dioxide | TWA: 10 mg/m <sup>3</sup>  | TWA: 15 mg/m <sup>3</sup>  |

**Exposure controls**

**Engineering measures**                      None under normal use conditions

**Individual protection measures, such as personal protective equipment (PPE)**

|                                 |   |
|---------------------------------|---|
| <b>Eye/Face protection</b>      | No special protective equipment required  |
| <b>Hand protection</b>          | No special protective equipment required  |
| <b>Skin and body protection</b> | No special protective equipment required  |
| <b>Respiratory protection</b>   | No special protective equipment required. |
| <b>Thermal hazards</b>          | None under normal processing              |

**Environmental Exposure Controls**    Keep out of drains, sewers, ditches and waterways

**9. PHYSICAL AND CHEMICAL PROPERTIES**

**Information on basic physical and chemical properties**

|                                   |   |                       |                |
|-----------------------------------|---|-----------------------|----------------|
| <b>Appearance</b>                 | Powder                                  | <b>Odor</b>           | Faint          |
| <b>Physical state</b>             | Solid                                   | <b>Odor threshold</b> | Not applicable |
| <b>Color</b>                      | Cyan, Black, Magenta, Yellow            | <b>pH</b>             | Not applicable |
| <b>Flash point</b>                | Not applicable                          |                       |                |
| <b>Boiling point/range</b>        | Not applicable                          | 49 - 60 °C            | / 120 - 140 °F |
| <b>Evaporation rate</b>           | Not applicable                          |                       |                |
| <b>Flammability</b>               | Not flammable. Will not readily ignite. |                       |                |
| <b>Flammability Limits in Air</b> | Not applicable                          |                       |                |
| <b>Vapor pressure</b>             | Not applicable                          |                       |                |
| <b>Vapor density</b>              | Not applicable                          |                       |                |
| <b>Specific gravity</b>           | ~ 1                                     |                       |                |
| <b>Water solubility</b>           | Negligible                              |                       |                |
| <b>Partition coefficient</b>      | Not applicable                          |                       |                |

|                                  |  |
|----------------------------------|--|
| <b>Autoignition temperature</b>  | Not applicable   |
| <b>Decomposition temperature</b> | Not determined   |
| <b>Viscosity</b>                 | Not applicable   |
| <b>Explosive properties</b>      | Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard |
| <b>Oxidizing properties</b>      | Not applicable   |

**Other information**

None

**10. STABILITY AND REACTIVITY**

**Reactivity**

No dangerous reaction known under conditions of normal use

**Chemical stability**

Stable under normal conditions

**Possibility of hazardous reactions**

|                                 |   |
|---------------------------------|---|
| <b>Hazardous reactions</b>      | None under normal processing            |
| <b>Hazardous polymerization</b> | Hazardous polymerization does not occur |

**Conditions to avoid**

Prevent dust cloud, Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard

**Incompatible Materials**

None

**Hazardous decomposition products**

None under normal use

**11. TOXICOLOGICAL INFORMATION**

*The toxicity data noted below is based on the test results of similar reprographic materials.*

**Information on toxicological effects**

**Acute toxicity**

**Product Information**

|                        |                                       |
|------------------------|---------------------------------------|
| <b>Irritation</b>      | No skin irritation, No eye irritation |
| <b>Oral LD50</b>       | > 5 g/kg (rat)                        |
| <b>Dermal LD50</b>     | > 5 g/kg (rabbit)                     |
| <b>LC50 Inhalation</b> | > 5 mg/L (rat, 4 hr)                  |

**Component Information**

| Chemical Name    | LC50 Inhalation      | Dermal LD50           | Oral LD50           |
|------------------|----------------------|-----------------------|---------------------|
| Paraffin wax     |                      | 3600 mg/kg ( Rabbit ) | 5000 mg/kg ( Rat )  |
| Carbon Black     |                      | 3 g/kg ( Rabbit )     | 15400 mg/kg ( Rat ) |
| Cyan Pigment     |                      |                       | 10000 mg/kg ( Rat ) |
| Magenta Pigment  |                      | 3 g/kg ( Rabbit )     | 23 g/kg ( Rat )     |
| Silicon dioxide  | 2.2 mg/L ( Rat ) 1 h | 2000 mg/kg ( Rabbit ) | 5000 mg/kg ( Rat )  |
| Titanium dioxide |                      |                       | 10000 mg/kg ( Rat ) |

**Chronic toxicity**

|                             |  |
|-----------------------------|--|
| <b>Sensitization</b>        | No sensitization responses were observed |
| <b>Neurological Effects</b> | No information available                 |
| <b>Target organ effects</b> | None known                               |

CMR Effects

**Mutagenic effects** Not mutagenic in AMES Test  
**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards  
**Carcinogenicity** See "Other Information" in this section.

| Chemical Name    | NTP | IARC |
|------------------|-----|------|
| Carbon Black     |     | 2B   |
| Titanium dioxide |     | 2B   |

**Other information**

The IARC (International Agency for Research on Cancer) has listed carbon black as "possibly carcinogenic to humans". However, Xerox has concluded that the presence of carbon black in this mixture does not present a health hazard. The IARC classification is based on studies evaluating pure, "free" carbon black. In contrast, toner is a formulation composed of specially prepared polymer and a small amount of carbon black (or other pigment). In the process of making toner, the small amount of carbon black becomes encapsulated within a matrix. Xerox has performed extensive testing of toner, including a chronic bioassay (test for potential carcinogenicity). Exposure to toner did not produce evidence of cancer in exposed animals. The results were submitted to regulatory agencies and published extensively.

The IARC (International Agency for Research on Cancer) has listed titanium dioxide as "possibly carcinogenic to humans". However, Xerox has concluded that the presence of titanium dioxide in this mixture does not present a health hazard. The IARC classification is based on studies in rats using high concentrations of pure, unbound TiO<sub>2</sub> particles of respirable size. The Titanium Dioxide Industry REACH Consortium has concluded that these effects were species-specific, attributable to lung overload and not specific to TiO<sub>2</sub>, i.e. similar effects would also be seen for other low solubility dusts. Toxicological and epidemiological studies do not suggest a carcinogenic effects in humans. In addition, the titanium dioxide in this mixture is encapsulated in a matrix or bound to the surface of the toner.

Other toxic effects

**Aspiration Hazard** Not applicable  
**Other adverse effects** None known

12. ECOLOGICAL INFORMATION

Toxicity

On available data, the mixture / preparation is not harmful to aquatic life

**Component Information**

| Chemical Name   | Toxicity to algae                                    | Toxicity to fish                       | Toxicity to microorganisms | Toxicity to daphnia and other aquatic invertebrates |
|-----------------|--|--|----------------------------|---|
| Carbon Black    |  |  |                            | EC50 > 5600 mg/L 24 h                               |
| Silicon dioxide | 440 mg/L EC50 72 h (Pseudokirchneriella subcapitata) | LC50= 5000 mg/L Brachydanio rerio 96 h |                            | EC50 = 7600 mg/L 48 h                               |

Persistence and degradability

Not readily biodegradable

Bioaccumulative potential

Bioaccumulation is unlikely

Mobility in soil

Insoluble in water

**Component Information**

| Chemical Name | log Pow |
|---------------|---------|
| Cyan Pigment  | 6.6     |

Other adverse effects

Presents little or no hazard to the environment.

**13. DISPOSAL CONSIDERATIONS**

**Waste treatment methods**

**Waste Disposal Methods**

This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.

**Contaminated packaging**

No special precautions are needed in handling this material

**Other information**

Although toner is not an aquatic toxin, microplastics may be a physical hazard to aquatic life and should not be allowed to enter drains, sewers, or waterways.

**14. TRANSPORT INFORMATION**

This material is not subject to regulation as a hazardous material for shipping

**15. REGULATORY INFORMATION**

**Safety, health and environmental regulations/legislation specific for the substance or mixture**

**OSHA Regulatory Status**

This product is an article which contains a mixture / preparation in powder form. Safety information is given for exposure to the article as sold and used by the customer. Intended use of the product is not expected to result in exposure to the mixture / preparation based on the packaging and method of dispensing.

While this material is not considered hazardous by the OSHA hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information for the safe handling and proper use of the product. This SDS should be retained and made available to employees and other users of this product.

**Canada**

**This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR), and the SDS contains all the information required by the HPR.**

**International Inventories**

|                 |          |
|-----------------|----------|
| <b>TSCA</b>     | Complies |
| <b>DSL/NDSL</b> | Complies |

**U.S. Federal Regulations**

**SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372

**Clean Water Act**

This product is not regulated as a pollutant pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

**Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)**

This product is not regulated as a hazardous air pollutant (HAPS) under Section 112 of the Clean Air Act Amendments of 1990.

**CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material

**US State Regulations**

**California Proposition 65**
