Description of first-aid measures For external use only. When symptoms persist or in all cases of doubt seek medical advice. General advice Show this material safety data sheet to the doctor in attendance. Eye contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes Wash skin with soap and water Skin contact Inhalation Move to fresh air Ingestion Rinse mouth with water and afterwards drink plenty of water or milk Most important symptoms and effects, both acute and delayed Acute toxicity Eyes No known effect No known effect Skin No known effect Inhalation Ingestion No known effect Chronic toxicity No known effects under normal use conditions Main symptoms Overexposure may cause: mild respiratory irritation similar to nuisance dust. None under normal use conditions **Aggravated Medical Conditions** Indication of immediate medical attention and special treatment needed **Protection of first-aiders** No special protective equipment required Notes to physician Treat symptomatically

5. FIRE-FIGHTING MEASURES

Extinguishing media

Suitable extinguishing mediaUse water spray or fog; do not use straight streams, FoamUnsuitable extinguishing mediaDo not use a solid water stream as it may scatter and spread fire

Special hazards arising from the substance or mixture

Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard

Hazardous combustion products

Hazardous decomposition products due to incomplete combustion, Carbon oxides, Nitrogen oxides (NOx)

Advice for fire-fighters

In the event of fire and/or explosion do not breathe fumes. Wear fire/flame resistant/retardant clothing. Use self-contained pressure-demand breathing apparatus if needed to prevent exposure to smoke or airborne toxins. Wear self-contained breathing apparatus and protective suit

Other information

Flammability	Not flammable. Will not readily ignite.
Flash point	Not applicable

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Avoid breathing dust

Environmental precautions

Although toner is not an aquatic toxin, microplastics may be a physical hazard to aquatic life and should not be allowed to enter drains, sewers, or waterways

Methods and material for containment and cleaning up

Methods for containment	Prevent dust cloud
Methods for cleaning up	Use an electrically protected vacuum cleaner to remove excess, then wash with COLD
	water. Hot water fuses the toner, making it difficult to remove
