

**SAFETY DATA SHEET**

This safety data sheet was created pursuant to the requirements of: Regulation (EC) No. 1907/2006 as amended by Regulation (EU) No. 2020/878, and Regulation (EC) No. 1272/2008

SDS # : F-60040

**HF Aqueous Ink - Magenta**

Issuing Date 10-02-2018

Revision date 08-07-2026

Revision Number 2

**European Version Only****SECTION 1: Identification of the substance/mixture and of the company/undertaking****1.1. Product identifier**

**Product Name** HF Aqueous Ink for Xerox® Baltoro™ HF InkJet Press  
**Part no.** 008R13258  
**Other means of identification**

**Pure substance/mixture** Mixture

**Colour** Magenta

**1.2. Relevant identified uses of the substance or mixture and uses advised against**

**Recommended use** Ink jet printing For professional use only

**Uses advised against** No information available

**1.3. Details of the supplier of the safety data sheet****Supplier**

Xerox Europe Limited Technology Park Road Louth

**For further information, please contact**

**Contact Point** Manager, Environment, Health, Safety& Sustainability

**E-mail address** ehs-europe@xerox.com

**Non-Emergency Telephone Number** +353 429387410

**For the most current document** <https://safetydatasheets.business.xerox.com>

**1.4. Emergency telephone number**

**Emergency Telephone** +44 1235 239670

**Emergency Telephone - §45 - (EC)1272/2008**

**Europe** 112

**SECTION 2: Hazards identification****2.1. Classification of the substance or mixture**

Classification according to Regulation (EC) No. 1272/2008 [CLP]

This mixture is classified as not hazardous according to regulation (EC) 1272/2008 [CLP]

## 2.2. Label elements

This mixture is classified as not hazardous according to regulation (EC) 1272/2008 [CLP]

## Hazard statements

This mixture is classified as not hazardous according to regulation (EC) 1272/2008 [CLP].

EUH208 Contains 1,2-Benzisothiazolin-3-one May produce an allergic reaction.

## 2.3. Other hazards

**Other hazards** Contains biocide(s).

**PBT & vPvB** The components in this formulation do not meet the criteria for classification as PBT or vPvB.

**Endocrine Disruptor Information** This product does not contain any known or suspected endocrine disruptors.

**Special Note** Contains a chemical that can cause an allergic reaction in susceptible people

## SECTION 3: Composition/information on ingredients

### 3.1. Substances

Not applicable

### 3.2. Mixtures

| Chemical name              | Weight-% | CAS No.     | EC No (EU Index No) | Classification according to Regulation (EC) No. 1272/2008 [CLP]                                                                                                                                                                                                        | REACH registration number |

**Note**

Full text of H- statements: see section 16

"-" indicates no classification or hazard statements apply.

Components marked as "Not Listed" are exempt from registration.

Where no REACH registration number is listed, it is considered confidential to the Only Representative.

#### Acute Toxicity Estimate

If LD50/LC50 data is not available or does not correspond to the classification category, then the appropriate conversion value from CLP Annex I, Table 3.1.2, is used to calculate the acute toxicity estimate (ATEmix) for classifying a mixture based on its components

| Chemical name              | Oral LD50 mg/kg | Dermal LD50 mg/kg | Inhalation LC50 - 4 hour - dust/mist - mg/L | Inhalation LC50 - 4 hour - vapour - mg/L | Inhalation LC50 - 4 hour - gas - ppm |
|----------------------------|-----------------|-------------------|---------------------------------------------|------------------------------------------|--------------------------------------|
| Water                      | 89838.9         | No data available | No data available                           | No data available                        | No data available                    |
| Propylene glycol           | 20000           | 20800             | No data available                           | No data available                        | No data available                    |
| Magenta pigment            | 23000           | 3000              | No data available                           | No data available                        | No data available                    |
| Triethanolamine            | 4190            | 20000             | No data available                           | No data available                        | No data available                    |
| 1,2-Benzisothiazolin-3-one | 450 +<br>1020   | 2000              | 0.21 +                                      | No data available                        | No data available                    |

+ This value is the harmonised acute toxicity estimate (ATE) listed in CLP Annex VI, Part 3. This harmonised ATE value must be used when calculating the acute toxicity estimate (ATEmix) for classifying a mixture containing the listed substance

This product does not contain candidate substances of very high concern at a concentration  $\geq 0.1\%$  (Regulation (EC) No. 1907/2006 (REACH), Article 59).

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

|                       |                                                                                                                                              |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>General advice</b> | For external use only. Get medical attention if irritation or other symptoms occur. Show this safety data sheet to the doctor in attendance. |
| <b>Inhalation</b>     | Remove to fresh air.                                                                                                                         |
| <b>Eye contact</b>    | Rinse thoroughly with plenty of water for at least 15 minutes, lifting lower and upper eyelids. Consult a doctor.                            |
| <b>Skin contact</b>   | Wash skin with soap and water.                                                                                                               |
| <b>Ingestion</b>      | IF SWALLOWED: Do not induce vomiting without medical advice.                                                                                 |

### 4.2. Most important symptoms and effects, both acute and delayed

|                            |                                                     |
|----------------------------|-----------------------------------------------------|
| <b>Symptoms</b>            | Prolonged contact may cause redness and irritation. |
| <b>Effects of Exposure</b> | No information available.                           |

### 4.3. Indication of any immediate medical attention and special treatment needed

|                        |                        |
|------------------------|------------------------|
| <b>Note to doctors</b> | Treat symptomatically. |
|------------------------|------------------------|

## SECTION 5: Firefighting measures

**5.1. Extinguishing media**

**Suitable Extinguishing Media** Use water spray or fog; do not use straight streams.

**Unsuitable extinguishing media** Do not scatter spilled material with high pressure water streams.

**5.2. Special hazards arising from the substance or mixture**

**Specific hazards arising from the chemical** Do not allow run-off from fire-fighting to enter drains or water courses.

**Hazardous combustion products** Thermal decomposition can lead to release of irritating gases and vapours.

**5.3. Advice for firefighters**

**Special protective equipment and precautions for fire-fighters** In case of fire: Wear self-contained breathing apparatus. Use personal protective equipment.

**SECTION 6: Accidental release measures****6.1. Personal precautions, protective equipment and emergency procedures**

**Personal precautions** Ensure adequate ventilation.

**For emergency responders** Use personal protection recommended in Section 8.

**6.2. Environmental precautions**

**Environmental precautions** See Section 12 for additional Ecological Information.

**6.3. Methods and material for containment and cleaning up**

**Methods for containment** Prevent further leakage or spillage if safe to do so. Dyke to collect large liquid spills. Keep out of drains, sewers, ditches and waterways.

**Methods for cleaning up** Dam up. Soak up with inert absorbent material. Pick up and transfer to properly labelled containers. Clean contaminated surface thoroughly.

**Prevention of secondary hazards** Clean contaminated objects and areas thoroughly observing environmental regulations.

**6.4. Reference to other sections**

**Reference to other sections** See section 8 for more information. See section 13 for more information.

**SECTION 7: Handling and storage****7.1. Precautions for safe handling**

**Advice on safe handling** Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Ensure adequate ventilation.

**General hygiene considerations** Handle in accordance with good industrial hygiene and safety practice.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage Conditions** Keep container tightly closed in a dry and well-ventilated place.

**Storage class (TRGS 510)** LGK 10.

**7.3. Specific end use(s)**

**Specific use(s)**  
Ink jet printing.

**Risk Management Methods (RMM)** The information required is contained in this Safety Data Sheet.

**SECTION 8: Exposure controls/personal protection****8.1. Control parameters****Exposure Limits**

| Chemical name              | European Union                                                                                                                                         | Austria                                                                                     | Belgium                                                                                  | Bulgaria                                                                                    | Croatia                                                                 |

## 8.2. Exposure controls

**Engineering controls** None under normal use conditions.

### Personal protective equipment

**Eye/face protection** If splashes are likely to occur, wear safety glasses with side-shields.

**Hand protection** Protective gloves.

**Skin and body protection** No special protective equipment required.

**Respiratory protection** No protective equipment is needed under normal use conditions. If exposure limits are exceeded or irritation is experienced, ventilation and evacuation may be required.

**Thermal hazards** None under normal processing.

**General hygiene considerations** Handle in accordance with good industrial hygiene and safety practice.

**Environmental exposure controls** Do not allow into any sewer, on the ground or into any body of water.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                 |                          |
|-----------------|--------------------------|
| Physical state  | Liquid                   |
| Appearance      | Opaque                   |
| Colour          | Magenta                  |
| Odour           | Slight.                  |
| Odour threshold | No information available |

| Property                                | Values         | Remarks • Method |
|-----------------------------------------|----------------|------------------|
| Melting point / freezing point          | Not applicable | None known       |
| Initial boiling point and boiling range | Not applicable | None known       |

|                                        |                          |            |
|----------------------------------------|--------------------------|------------|
| Flammability                           | Not flammable            | None known |
| Flammability Limit in Air              |                          | None known |
| Upper flammability or explosive limits | Not applicable           |            |
| Lower flammability or explosive limits | Not applicable           |            |
| Flash point                            | > 100 °C                 | None known |
| Autoignition temperature               | Not applicable           | None known |
| Decomposition temperature              | Not applicable           | None known |
| pH                                     | 7 - 9.5                  | None known |
| pH (as aqueous solution)               | No data available        | None known |
| Kinematic viscosity                    | Not applicable           | None known |
| Dynamic viscosity                      | Not applicable           | None known |
| Water solubility                       | Dispersible              | None known |
| Solubility(ies)                        | No data available        | None known |
| Partition coefficient                  | Not applicable           | None known |
| Vapour pressure                        | Not applicable           | None known |
| Relative density                       |                          | None known |
| Bulk density                           | Not applicable           |            |
| Liquid Density                         | Not applicable           |            |
| Relative vapour density                | No data available        | None known |
| Particle characteristics               |                          |            |
| Particle Size                          | No information available |            |
| Particle Size Distribution             | No information available |            |

**9.2. Other information**

|                 |                |
|-----------------|----------------|
| Softening point | Not applicable |
| VOC content     | None           |

**9.2.1. Information with regards to physical hazard classes**

|                      |                |
|----------------------|----------------|
| Explosive properties | Not applicable |
|----------------------|----------------|

**9.2.2. Other safety characteristics**

No information available

**SECTION 10: Stability and reactivity****10.1. Reactivity**

|            |                                                             |
|------------|-------------------------------------------------------------|
| Reactivity | No dangerous reaction known under conditions of normal use. |
|------------|-------------------------------------------------------------|

**10.2. Chemical stability**

|           |                                 |
|-----------|---------------------------------|
| Stability | Stable under normal conditions. |
|-----------|---------------------------------|

**Explosion data**

|                                  |       |
|----------------------------------|-------|
| Sensitivity to mechanical impact | None. |
| Sensitivity to static discharge  | None. |

**10.3. Possibility of hazardous reactions**

|                                    |                               |
|------------------------------------|-------------------------------|
| Possibility of hazardous reactions | None under normal processing. |
|------------------------------------|-------------------------------|

|                          |                                          |
|--------------------------|------------------------------------------|
| Hazardous polymerisation | Hazardous polymerisation does not occur. |
|--------------------------|------------------------------------------|

**10.4. Conditions to avoid**

**Conditions to avoid** Extremes of temperature and direct sunlight.

#### **10.5. Incompatible materials**

**Incompatible materials** None known based on information supplied.

#### **10.6. Hazardous decomposition products**

**Hazardous decomposition products** Undefined, but may include toxic oxides of carbon and nitrogen.

### **SECTION 11: Toxicological information**

**Note:** The toxicity data noted below is based on the test results of similar reprographic materials.

#### **11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008**

##### **Information on likely routes of exposure**

**Inhalation** No known effects under normal use conditions.

**Eye contact** May cause irritation.

**Skin contact** May cause irritation.

**Ingestion** Not an expected route of exposure.

##### **Symptoms related to the physical, chemical and toxicological characteristics**

**Symptoms** None known.

##### **Delayed and immediate effects as well as chronic effects from short and long-term exposure**

**Acute toxicity** Based on available data, the classification criteria are not met.

##### **Numerical measures of toxicity**

| Chemical name              | Oral LD50            | Dermal LD50                             | Inhalation LC50          |
|----------------------------|----------------------|-----------------------------------------|--------------------------|
| Water                      | > 90 mL/kg ( Rat )   | -                                       | -                        |
| Propylene glycol           | = 20 g/kg ( Rat )    | = 20800 mg/kg ( Rabbit )                | -                        |
| Magenta pigment            | > 23 g/kg ( Rat )    | > 3000 mg/kg ( Rabbit )                 | > 3.055 mg/L ( Rat ) 4 h |
| Triethanolamine            | = 4190 mg/kg ( Rat ) | 20 mL/kg ( Rabbit )<br>16 mL/kg ( Rat ) | -                        |
| 1,2-Benzisothiazolin-3-one | = 1020 mg/kg ( Rat ) | > 2000 mg/kg ( Rat )                    | -                        |

**Skin corrosion/irritation** May cause skin irritation.

**Serious eye damage/eye irritation** Irritating to eyes.

**Respiratory or skin sensitisation** Based on available data, the classification criteria are not met.

**Germ cell mutagenicity** Not mutagenic in AMES Test.

**Carcinogenicity** Based on available data, the classification criteria are not met.

**Reproductive toxicity** This product does not contain any known or suspected reproductive hazards.

**STOT - single exposure** Based on available data, the classification criteria are not met.

**STOT - repeated exposure** Based on available data, the classification criteria are not met.

**Aspiration hazard** Based on available data, the classification criteria are not met.

## **11.2. Information on other hazards**

### **11.2.1. Endocrine disrupting properties**

**Endocrine disrupting properties** This mixture does not contain any substance that has endocrine disrupting properties with respect to humans.

### **11.2.2. Other information**

**Neurological effects** No information available.

**Other adverse effects** Although liquid ink is not an aquatic toxin, microplastics may be a physical hazard to aquatic life and should not be allowed to enter drains, sewers, or waterways.

## **SECTION 12: Ecological information**

### **12.1. Toxicity**

**Ecotoxicity** Not considered to be harmful to aquatic life.

**Chronic Aquatic Toxicity** On available data, substance is not harmful to aquatic life.

| Chemical name    | Algae/aquatic plants                                                                           | Fish                                                                                                                                                                                    | Toxicity to microorganisms | Crustacea                            |
|------------------|------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------|--------------------------------------|
| Propylene glycol | EC50: =19000mg/L (96h, Pseudokirchneriella subcapitata)                                        | LC50: =51600mg/L (96h, Oncorhynchus mykiss)<br>LC50: 41 - 47mL/L (96h, Oncorhynchus mykiss)<br>LC50: =51400mg/L (96h, Pimephales promelas)<br>LC50: =710mg/L (96h, Pimephales promelas) | -                          | EC50: >1000mg/L (48h, Daphnia magna) |

**12.2. Persistence and degradability****Persistence and degradability** Not readily biodegradable.**12.3. Bioaccumulative potential****Bioaccumulation**

| Chemical name              | Partition coefficient |
|----------------------------|-----------------------|
| Propylene glycol           | -1.07                 |
| 1,2-Hexanediol             | 0.58                  |
| Magenta pigment            | 2.2                   |
| Triethanolamine            | -2.53                 |
| 1,2-Benzisothiazolin-3-one | 0.99                  |

**12.4. Mobility in soil****Mobility in soil** The product is insoluble and floats on water.**12.5. Results of PBT and vPvB assessment****PBT and vPvB assessment** The product does not contain any substance(s) classified as PBT or vPvB.

| Chemical name              | PBT and vPvB assessment |
|----------------------------|-------------------------|
| Propylene glycol           | Not PBT/vPvB            |
| 1,2-Hexanediol             | Not PBT/vPvB            |
| Magenta pigment            | Not PBT/vPvB            |
| Triethanolamine            | Not PBT/vPvB            |
| 1,2-Benzisothiazolin-3-one | Not PBT/vPvB            |

**12.6. Endocrine disrupting properties****Endocrine disrupting properties** This mixture does not contain any substance that has endocrine disrupting properties with respect to non-target organisms.**12.7. Other adverse effects****Other adverse effects** No information available.**PMT or vPvM properties** The product does not contain any substance(s) classified as PMT or vPvM.**SECTION 13: Disposal considerations****13.1. Waste treatment methods****Waste from residues/unused products** Can be landfilled or incinerated, when in compliance with local regulations.**Contaminated packaging** Dispose of contents/containers in accordance with local regulations.**Waste codes / waste designations according to EWC** 08 03 13.**Other information** Do Not Pour Product Down the Drain; Do Not Rinse the Container Before Disposal. Although liquid ink is not an aquatic toxin, microplastics may be a physical hazard to aquatic life and should not be allowed to enter drains, sewers, or waterways.**SECTION 14: Transport information****IATA**

| Chemical name              | French RG number |
|----------------------------|------------------|
| Propylene glycol           | RG 84            |
| Triethanolamine            | RG 49            |
| 1,2-Benzisothiazolin-3-one | RG 65, RG 66     |

**Switzerland**

**Ordinance on the Incentive Tax on Volatile Organic Compounds (OVOC) SR 814.018** Not applicable  
**Storage of Hazardous Material** SC Non-hazardous material  
**WPO (GSchV) SR 814.201; WPA (GSchG) SR 814.20** Class B

**European Union**

Take note of Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work.

**Authorisations and/or restrictions on use:**

This product does not contain substances subject to authorisation (Regulation (EC) No. 1907/2006 (REACH), Annex XIV) This product does not contain substances subject to restriction (Regulation (EC) No. 1907/2006 (REACH), Annex XVII)

The synthetic polymer microparticles supplied is subject to conditions laid down by entry 78 of Annex XVII to Regulation (EC) No 1907/2006 of the European Parliament and of the Council. Toners and inks are subject to the derogations referred to in Paragraphs 4a and/or 5 (a/b/c) of the Regulation.

**Persistent Organic Pollutants**

Not applicable

**Ozone-depleting substances (ODS) regulation (EC) 1005/2009**

Not applicable

**Biocidal Products Regulation (EU) No 528/2012 (BPR)**

| Chemical name              | Biocidal Products Regulation (EU) No 528/2012 (BPR)                                                                                                                                                                                                                                                                                                                                                        |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1,2-Benzisothiazolin-3-one | Product-type 2: Disinfectants and algicides not intended for direct application to humans or animals Product-type 6: Preservatives for products during storage Product-type 9: Fibre, leather, rubber and polymerised materials preservatives Product-type 11: Preservatives for liquid-cooling and processing systems Product-type 12: Slimicides Product-type 13: Working or cutting fluid preservatives |

### 15.2. Chemical safety assessment

#### Chemical Safety Report

A chemical safety assessment according to regulation (EC) No. 1907/2006 is not required

## SECTION 16: Other information

### Key or legend to abbreviations and acronyms used in the safety data sheet

#### Full text of H-Statements referred to under section 3

H302 - Harmful if swallowed  
 H315 - Causes skin irritation  
 H317 - May cause an allergic skin reaction  
 H318 - Causes serious eye damage  
 H319 - Causes serious eye irritation  
 H330 - Fatal if inhaled  
 H400 - Very toxic to aquatic life  
 H410 - Very toxic to aquatic life with long lasting effects

#### Legend

SVHC: Substances of Very High Concern for Authorisation:  
 PBT: Persistent, Bioaccumulative, and Toxic (PBT) Substances  
 vPvB: Very Persistent and very Bioaccumulative (vPvB) Substances  
 STOT: Specific Target Organ Toxicity  
 ATE: Acute Toxicity Estimate  
 LC50: 50% Lethal Concentration  
 LD50: 50% Lethal Dose

#### Legend Section 8: Exposure controls/personal protection

|         |                             |      |                                  |
|---------|-----------------------------|------|----------------------------------|
| TWA     | TWA (time-weighted average) | STEL | STEL (Short Term Exposure Limit) |
| Ceiling | Maximum limit value         | Sk*  | Skin designation                 |
| +       | Sensitisers                 |      |                                  |

| Classification procedure                                        |                       |
|-----------------------------------------------------------------|-----------------------|
| Classification according to Regulation (EC) No. 1272/2008 [CLP] | Method Used           |
| Acute oral toxicity                                             | On basis of test data |
| Acute dermal toxicity                                           | On basis of test data |
| Acute inhalation toxicity - gas                                 | On basis of test data |
| Acute inhalation toxicity - vapour                              | On basis of test data |
| Acute inhalation toxicity - dust/mist                           | On basis of test data |
| Skin corrosion/irritation                                       | Calculation method    |
| Serious eye damage/eye irritation                               | Calculation method    |
| Respiratory sensitisation                                       | Calculation method    |
| Skin sensitisation                                              | Calculation method    |
| Mutagenicity                                                    | Calculation method    |
| Carcinogenicity                                                 | Calculation method    |
| Reproductive toxicity                                           | Calculation method    |

|                          |                    |
|--------------------------|--------------------|
| STOT - single exposure   | Calculation method |
| STOT - repeated exposure | Calculation method |
| Acute aquatic toxicity   | Calculation method |
| Chronic aquatic toxicity | Calculation method |
| Aspiration hazard        | Calculation method |
| Ozone                    | Calculation method |
